ISSUE 3

What the extension of Birmingham Airport will mean for North Warwickshire

OUTCOME

NWBC didn't object to the expansion of runway. The flight paths do not impact on North Warwickshire air space.

NWBC have raised concerns over:

impact of a new 3,365-space multi-storey car park
that the new terminal be truly multi modal (linked with HS2 proposal and other public transport improvements).

Impact on North Warks is difficult to predict & tied closely to HS2
